Hi Ward

Okay, have proofed and re-engineered the emotive terms

Attached is the document in word format to enable easy C&P

I know you appreciate the urgency of lodgings with SARA

Can we CC the Council in with the response ?

Thanks for you cooperation

I am happy to send however you may want to reconsider some words such “nonsensical” and “muse”. I don’t want to get them focussed on these emotive statements.

Hi Ward

Having you send it I think is the most expeditious and less complicated option so if you happy to do that

I have attached the response I want to send

However you might want to read it and make sure you're comfortable putting that under your name.

Without putting any pressure on you if you could let me know if you are happy with it as soon as possible because if you're not then I have to start the alternative process

Thanks you help

Hi Ward

Thanks for that advice

I'm just trying to choose which is the more efficient way to respond.

1. I could do up a response and have you send it; or
2. I can complete the appropriate form to change the original form 1 and probably have to have a fight with them about that being the proper process. Then send it my self

And if I change it (The Form 1) I would want to leave both you and I able to deal with them (although I think we are almost at the end) But I would probably have a fight with them over that as well- All of which will be time consuming

Which of these do you prefer

Regards

Warren

Have until the assessment managers decision is issued you can make representations. I would usually do it straight away and cc the assessment manager.

Hi Ward

Is there a facility to engage with SARA at this stage over their conditions?

I see Part 6 of the **Development Assessment Rules** but they do not seem to help understand the process

And what is the time period and process?

OR

Do we just wait until the DP is issued and file and Appeal In the P&E Court and then negotiate?

My Issues are attached

Please let me know
