Hi Rosanna

Could you please give me an estimation of when you anticipate you will have received advice back from your technical agency as to whether or not for the amended development that a wetland trigger is still applicable, within the terms of the planning regulations.

And

If it is determined as still applicable, then given the information provided in my email of 24 September, how long after receiving that technical advice will the authority be in a position to provide its advice to the assessment manager.

Thanking you for your assistance

Regards

Warren
